SUMMARY

Diligent individual with proficient problem solving skills and works well in a team. Eager to experience and explore more to refine my skills for growth in a challenging environment and be able to contribute more to the success of the company.

EXPERIENCE

Intern - Lead Back-End Developer

Melham Construction Company | August 2022 - September 2022

- Led a team of back-end developers in building, addressing the concerns of the admins, and maintaining the web application that was assigned to us.
- Organized meetings for defining timelines, addressing issues, and prioritizing tasks to meet deadlines.
- Collaborated with the front-end developers team, and project managers to discuss about the project requirements and task specifications.
- Managed system version control using FileZilla and monitored the database for further optimization.

Freelance Developer

PADES Printing | October 2023 - November 2023

- Utilized Figma for the low-fi layout of the project and identifying what components to create, as well as the final design to be implemented for the UI of the project.
- Efficiently developed a fully responsive business website using ReactJS and Bootstrap.
- Effectively managed the project with Jira and Slack, utilizing Github as the system version control.
- Deployed the project with Github Pages as the web hosting, and Hostinger as the domain.
